

VENTURE BUSINESSES

SHAPING JAPAN'S TOMORROW

Companies that develop services, products and businesses in new forms, based on innovative ideas and technology, are known as venture companies. The vibrant energy of breakthrough business ventures is driving Japan's economic revitalization. As they cut through territory yet unexplored, entrepreneurs are also the indispensable engines for Japan's economic growth. We offer a portrayal of some assertive venture businesses and their founders that are shaping Japan's tomorrow.
